

Earth Power

Solar Wall Lights

Features:

- 100% Solar Operation, Uses NO grid electricity
- Integrated light sensor and motion sensor (SL09)
- Waterproof, heatproof and durable.
- Over 12 hours lighting time after one day charge
- Easy to install

SL09 Specifications:

- Solar panel: 0.44W, 17% efficiency
- Li-ion battery: 2.22WH
- LED: 4pcs, SMD 3020, 0.8 Watt,80Lumens
- Color temperature: 6000K to 6500K
- Lighting modes: Off/DIM/bright,
- DIM: dim lighting for saving power when no motion detected
- Bright: motion activate for lighting when motion detected
- PIR motion sensor:120°,3M; Night sensor:<10Lux
- Charging Protection: Over charging, over discharging, over current, short circuit
- Size: 104 x 86 x 40 mm

EAR-SL09-P

SL12 Specifications:

- Solar Panel: Monocrystalline: 2.2V/80mA 0.16W
- LED*2
- battery:1.2V/600MA
- Material:ABS +PMMA+PE
- Charging 6-8hours, 6 hours operation
- Day/night sensor automatically turns on light at night
- Size: 89 x 46 x 69 mm.

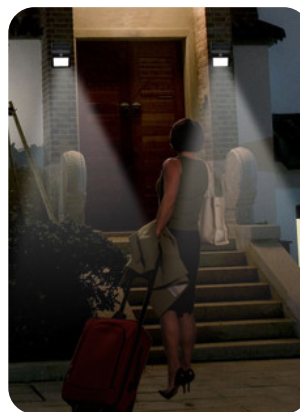

EAR-SL12-P

Applications:

Security
Parking Bays
Pathways & Driveways
Exterior Stairways
Balconies
Patios
Entrances
Gardens
General Lighting
